- Learn how you can help advocate for older persons at the United Nations to raise world awareness of the opportunities and challenges of global aging.
- Become better informed about United Nations activities related to concerns of older persons to promote and advocate for older persons to inform national policies and programs, to encourage member states to include aging needs in social and economic policy considerations, and to encourage that older persons are a valuable resource for economic and social prosperity.

BENEFITS OF MEMBERSHIP

The NGO Committee on Aging, NY works to raise world awareness of the opportunities and challenges of global aging. The Committee advocates within the United Nations community to further integrate aging into UN policies and programs, to encourage member states to include aging needs in social and economic policy considerations, and to encourage that older persons are a valuable resource for economic and social prosperity. The Committee works with partners on this global initiative and with the Committees on Aging in Geneva and Vienna.
