

NGO COA NY Subcommittee on Older Women  
NGO CSW67 Forum Parallel Event

Tuesday, March 7, 2023  
10:00 a.m. – 11:30 am. EST

**“The Generations: More in Common Than Not”**

Join us in an engaging intergenerational discussion that will flip the script on the age-based ‘us versus them’ competitive approach to policy development. Panelists will explore the experience of age, gender, and other relevant barriers to a full life, identifying shared goals and the power of synergy in actualizing human rights and advancing policies for women throughout the lifespan.

The importance of strategic advocacy skills, critical to the dismantling of structural inequities and disparities of daily life as uniquely experienced by women and girls of **all** ages, will be highlighted. Utilizing a bookend generational approach, panelists will discuss the value of applying a life course perspective to development of socially just policies. This session will remind attendees of the intersectionality of the isms, particularly age and gender, and the imperative to foster collaborations in advancing justice for women, from youth through old age.

**SPEAKERS:**

Carole Ageng’o, HelpAge International and Stakeholders’ Group on Ageing, Africa  
Laelia, Girl Scouts USA  
Ramsey Alwin, NCOA, Moderator  
Bette Levy, Soroptimist International, Respondent
